Re: Revisions of Stock Exchange of Thailand's Regulations on Supervision of Trusts, Property Funds, and Infrastructure Funds and on Qualification Criteria for Listed Companies Subject to Possible Delisting

Re: Managing Directors  
Asset Management Companies, Trusts Managers, Listed Companies, Financial Advisors, Member Companies, and Non-Member Securities Companies

Enclosures: 1. Three Revised Regulations of the Stock Exchange of Thailand  
2. Summary of the Revised Regulations of the Stock Exchange of Thailand

The Stock Exchange of Thailand ("SET") has revised the rules on the supervision of trusts, property funds, and infrastructure funds (collectively referred to as the "Funds") and on the qualification criteria for listed companies subject to possible delisting. The key revisions are as summarized below.

1. Additional caution signs: Caution signs applicable to common stocks will also be applied to the Funds with heightened risk profiles, events that may affect their financial positions, business operations or liquidity status, or non-compliance with SET's regulations. This measure aims to alert investors of such circumstances to facilitate their informed and prudent investment decisions.

2. Revision of qualification criteria for listed companies subject to possible delisting: The qualification criteria for listed companies to resume trading and for listed companies seeking to extend the rehabilitation period have been revised to align with the 'new listing' criteria of SET and the Market for Alternative Investment (mai). This measure aims to ensure that companies reinstated for trading have adequately strong financial positions and operating performance.

These revised regulations will be effective from 1 January 2025, details of which are as per Enclosures 1 and 2.

Please be informed accordingly

Yours sincerely,

*(Signed) Asadej Kongsiri*
