

SETSMART for Investor

SETSMART Internet is an internet based information database system developed by the Stock Exchange of Thailand. The service seamlessly integrates historical trading prices and indices, listed companies information and news, and key statistics information all in one service. Investors could easily learn and use this service which can be an alternative channel to access information which normally could only be reached by professional analysts.

Real time Data

Real time and 5 years historical data of Index, stock and derivatives trading including fundamental information of listed companies such as news, financial statement, corporate actions.

Full with great functions

More than 60 functions are provided that will help you screen stocks, ranking, compare and analyze in depth like a professional.

Export to MS Excel

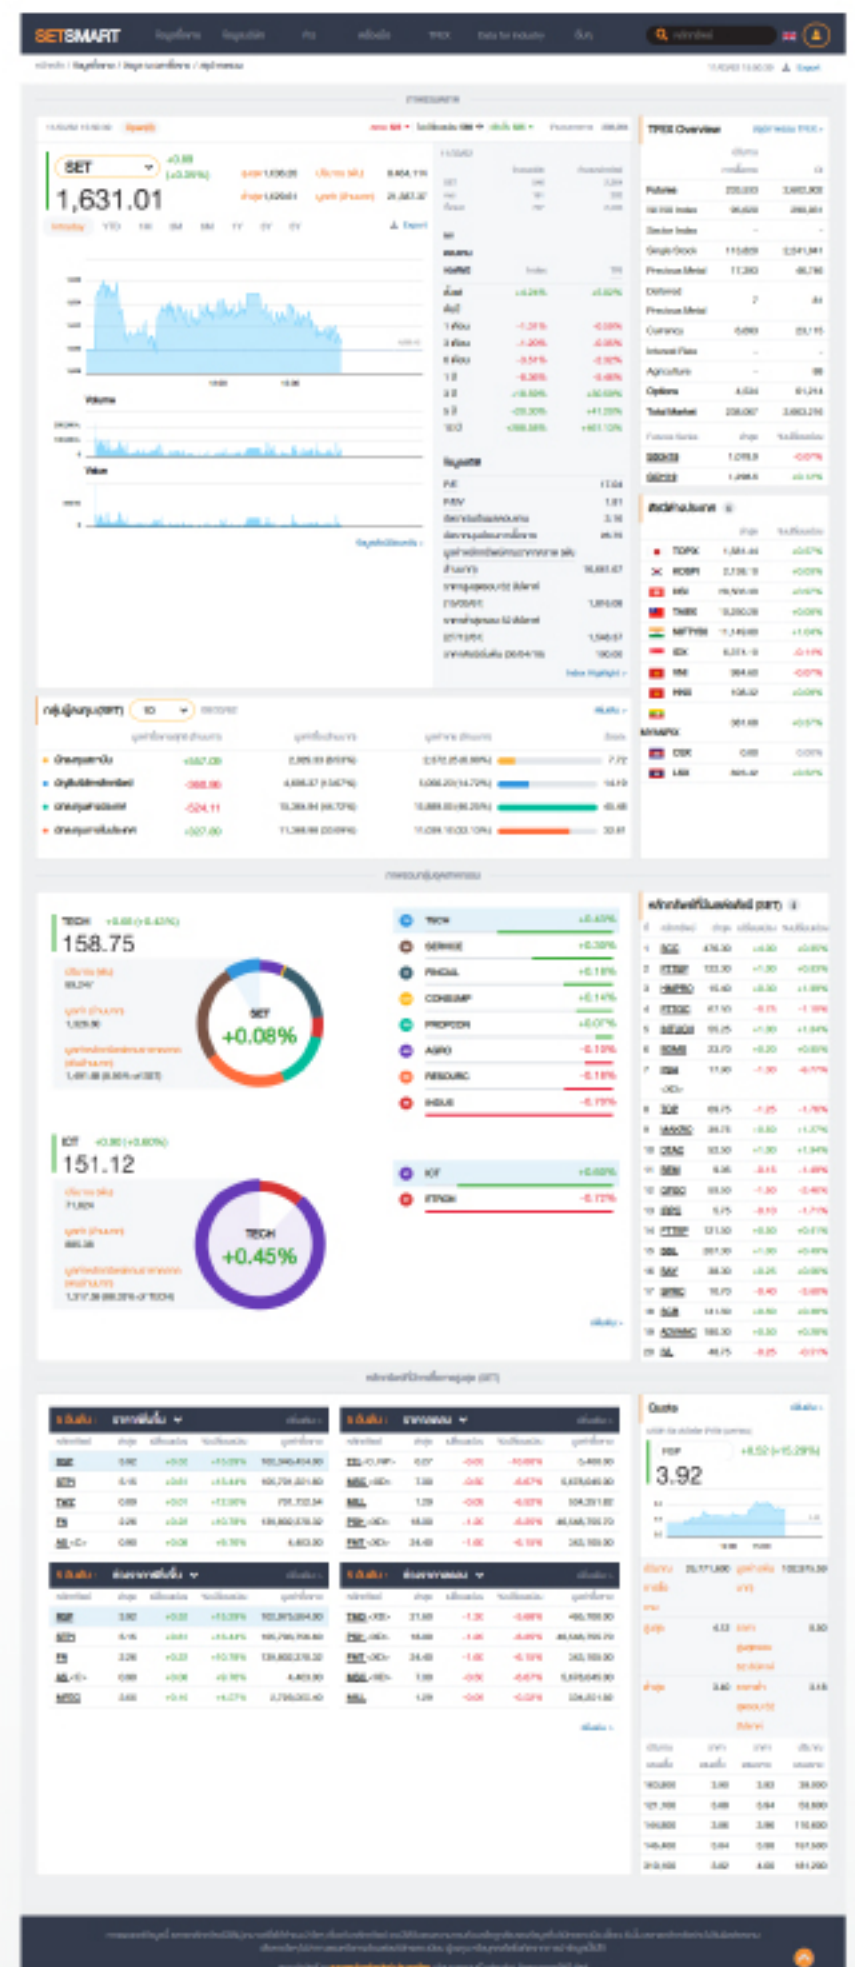

Can export to MS Excel program for immediate use.

Supports multiple devices such as PC or mobile

The service could be accessed from anywhere and anytime. Just login to www.setsmart.com then enter your username and password, and you are set to go.

How to purchase

- 1) Go to SETSMART website (www.setsmart.com)
- 2) Register for purchase with your own SET Member's User ID
- 3) Choose package 1 month / 12 months with automatic renewal or one-time purchase
- 4) Payment via Credit card, debit card or internet banking
